BDCP Draft Approach - 29 Sep 10.docx

Hi: here is the revised scope for the possible discussion we will have with DWR on using CWMW-approved monitoring and mapping approaches for both the CV Flood Management Planning Program and the BDCP. I have included Erin Foresman from our office to see if she can give us some additional feedback on the proposal.

Next, I will take it to our associate director in the Office of Water, Karen Schwinn, for her consideration. If it makes it past that, we can then talk to Dale Hoffman-Floerke about it - which Eric and I will set up.

Sound OK?

Still haven't heard if Ross Clark is going to be listed as a possible partner.

Cheers,
Paul
